**NORDCO ANNOUNCES NEW VICE PRESIDENT OF INSPECTION TECHNOLOGIES**

*Ken Kaszubinski Joins Nordco's Leadership Team*

November 19, 2015, Oak Creek, WI – Nordco Inc. announces today that Ken Kaszubinski has joined the organization as the Vice President of Inspection Technologies. Ken will be responsible for leading our inspection business in Beacon Falls, CT and Lee's Summit, MO. He will guide the Cyl-Sonic team to become more customer-centric and create the most respected inspection business in the market. Cyl-Sonic systems are among the leading ultrasonic non-destructive testing options for cylinder requalification.

Ken comes to Nordco from the automated tool industry at Atlas Coprco and Apex Tool. He has worked in multiple countries and was deeply involved in Lean Enterprise while working for Atlas on-site at Toyota in Japan.

Ken holds a bachelors' degree from Oakland University and two Masters' degrees from Jones International University.

## ABOUT NORDCO

Nordco provides an extensive selection of products and services that make it possible for rail-related industries to build, improve, maintain and inspect their track infrastructure and move rolling stock. Nordco, established in 1926 and headquartered in Oak Creek, Wisconsin, has a long history as a manufacturer of new and rebuilt railroad Roadway Work Equipment. Today the company's product line includes in-house and on-site machinery inspection and repair; reconditioned machinery rental; mobile railcar movers; ultrasonic rail flaw testing equipment and services for railroads and other industries; and replacement parts.

Nordco operates manufacturing facilities in Oak Creek, Wisconsin; Beacon Falls, Connecticut; Grandview, Missouri; and Arcola, Illinois.
